## Username password set

The screenshot shows the 'CREATE USER' window during the Red Hat Enterprise Linux 8.2 installation. The window has a title bar with 'RED HAT ENTERPRISE LINUX 8.2 INSTALLATION' and a 'Help' button. Below the title bar, there are fields for 'Full name' and 'User name'. A tip states: 'Tip: Keep your user name shorter than 32 characters and do not use spaces.' There are two checkboxes: 'Make this user administrator' (unchecked) and 'Require a password to use this account' (checked). Below these are fields for 'Password' and 'Confirm password', both with eye icons to toggle visibility. A progress bar is shown between the password fields. At the bottom, there is an 'Advanced...' button.

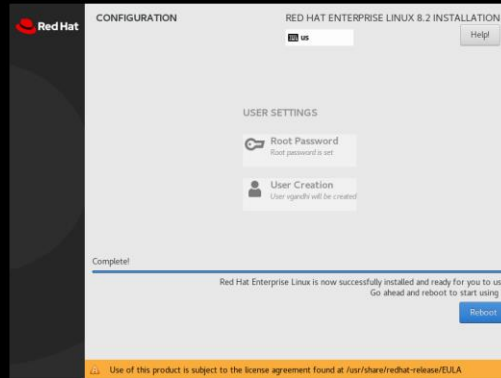

## ALL ROOT & USERNAME SET

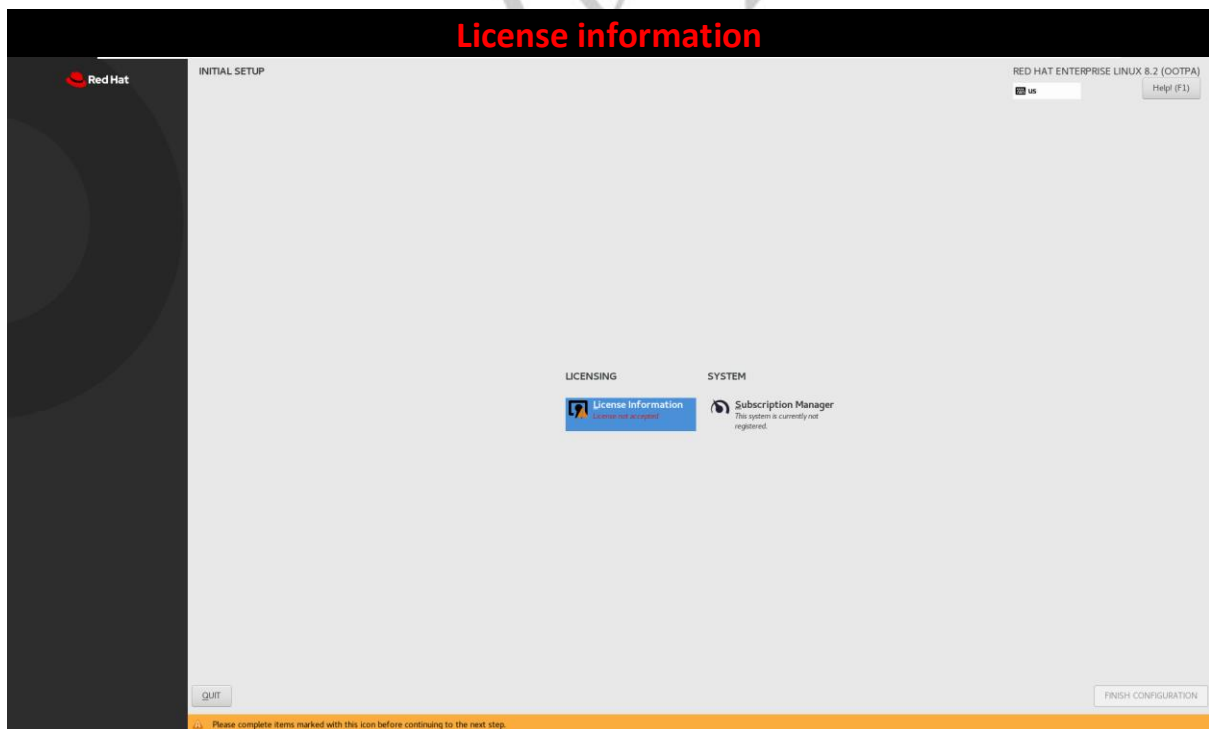

The screenshot shows the 'CONFIGURATION' window during the Red Hat Enterprise Linux 8.2 installation. The window has a title bar with 'RED HAT ENTERPRISE LINUX 8.2 INSTALLATION' and a 'Help' button. The main content area is titled 'USER SETTINGS' and shows a 'Root Password' field with a key icon and the text 'Root password is set'. Below this is a 'User Creation' button with a user icon and the text 'User account will be created'. At the bottom, there is a progress bar for 'Installing container-selinuxnoarch (800/1348)'.

License Agreement:

END USER LICENSE AGREEMENT RED HAT(R) ENTERPRISE LINUX(R) AND RED HAT APPLICATIONS

This end user license agreement ("EULA") governs the use of any of the versions of Red Hat Enterprise Linux, certain other Red Hat software applications that include or refer to this license, and any related updates, source code, appearance, structure and organization (the "Programs"), regardless of the delivery mechanism.

- License Grant.** Subject to the following terms, Red Hat, Inc. ("Red Hat") grants to you a perpetual, worldwide license to the Programs (most of which include multiple software components) pursuant to the GNU General Public License v.2. The license agreement for each software component is located in the software component's source code and permits you to run, copy, modify, and redistribute the software component (subject to certain obligations in some cases), both in source code and binary code forms, with the exception of (a) certain binary only firmware components and (b) the images identified in Section 2 below. The license rights for the binary only firmware components are located with the components themselves. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms of any particular component.
- Intellectual Property Rights.** The Programs and each of their components are owned by Red Hat and other licensors and are protected under copyright law and under other laws as applicable. Title to the Programs and any component, or to any copy, modification, or merged portion shall remain with Red Hat and other licensors, subject to the applicable license. The "Red Hat" trademark and the "Shadowman" logo are registered trademarks of Red Hat in the U.S. and other countries. This EULA does not permit you to distribute the Programs or their components using Red Hat's trademarks, regardless of whether the copy has been modified. You may make a commercial redistribution of the Programs only if (a) permitted under a separate written agreement with Red Hat authorizing such commercial redistribution, or (b) you remove and replace all occurrences of Red Hat trademarks. Modifications to the software may corrupt the Programs. You should read the information found at <http://www.redhat.com/about/corporate/trademarks/> before distributing a copy of the Programs.
- Limited Warranty.** Except as specifically stated in this Section 3, a separate agreement with Red Hat, or a license for a particular component, to the maximum extent permitted under applicable law, the Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose. Red Hat warrants that the media on which the Programs and the components are provided will be free from defects in materials and manufacture under normal use for a period of 30 days from the date of delivery to you. Neither Red Hat nor its affiliates warrants that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements. This warranty extends only to the party that purchases subscription services for the Programs from Red Hat and/or its affiliates or a Red Hat authorized distributor.
- Limitation of Remedies and Liability.** To the maximum extent permitted by applicable law, your exclusive remedy under this EULA is to return any defective media within 30 days of delivery along with a copy of your payment receipt and Red Hat, at its option, will replace it or refund the money you paid for the media. To the maximum extent permitted under applicable law, under no circumstances will Red Hat, its affiliates, any Red Hat authorized distributor, or the licensor of any component provided to you under this EULA be liable to you for any incidental or consequential damages, including lost profits or lost savings arising out of the use or inability to use the Programs or any component, even if Red Hat, its affiliates, an authorized distributor and/or licensor has been advised of the possibility of such damages. In no event shall Red Hat's or its affiliates' liability, an authorized distributor's liability or the liability of the licensor of a component provided to you under this EULA exceed the amount that you paid to Red Hat for the media under this EULA.

☒ I accept the license agreement.
